

Projekt *Creative Classroom*

Projekt *Creative Classroom* (2014-1-EE01-KA201-000525) financiran je u okviru Erasmus+ programa *Key Action 2: Strategic Partnerships in the field of education, training and youth* iznosom od 160 000 eura. Projekt traje dvije godine od 1.9.2014. do 31.08.2016. godine.

Voditelj projekta je tvrtka BCS Koolitus, Tallinn, Estonia, a partneri su: Tallinn University (Estonia), Sveučilište u Rijeci, Metropolia Ammattikorkeakoulu (Finland) i Univerza v Ljubljani (Slovenia). Na projektu sudjeluje Odjel za informatiku Sveučilišta u Rijeci, a koordinator je izv. prof. dr. sc. Nataša Hoić-Božić.

Sažetak projekta:

Current partnership will work to design and deliver an innovative training to Estonian teachers and an electronic lesson guide book for school teachers Europe wide to enable innovative tools and methods to be used in delivering the national curricula. A group of Estonian teachers are gathered to a focus group where under the leadership of European educational technology top experts they will go through training and as a result develop an electronic lesson guide book to school teachers all over Europe.

The education systems Europe wide will have a tool (the developed lesson guides) to use for innovative teaching. This will be a groundsel for many education institutions for starting the shift for 21-st century education.
